Summary

Aspiring AI/ML developer passionate about crafting intelligent, real-world solutions. With experience in full-stack development, open-source contribution, and competitive hackathons, I bring both technical curiosity and strong teamwork to every challenge. Currently enhancing skills in Data Structures & Algorithms and Machine Learning, and adapt well to dynamic work environments.

Skills & Tools

- **Languages:** JavaScript, TypeScript, Python, C++, HTML, CSS
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Frameworks:** React, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Socket.io
- **Tools:** Git, GitHub, Docker, Google Cloud, Linux
- **Soft Skills:** Problem Solving, Team Collaboration, Time Management, Adaptability, Communication

Work Experience

Open Source Contributor

GSSoC 2026

GirlScript Summer of Code

May 2026 – Aug 2026

- Actively contributed to multiple open-source repositories, resolving bugs and implementing new features across diverse codebases.
- Collaborated with project maintainers and global developers through code reviews, pull requests, and documentation improvements.
- Ranked **1,456 globally among 47,951 participants (Top 4%)**, demonstrating consistent contribution quality and impact.

Projects

EmoSync — IoT Biometric Telemetry Platform | [GitHub](#)

- Built a high-fidelity IoT biometric telemetry platform with a real-time medical data visualization dashboard and live analytics.
- Engineered end-to-end full-stack architecture using **React, Node.js, Socket.io, MongoDB, and Tailwind CSS** with ESP32 hardware integration.
- Implemented real-time WebSocket data streaming for continuous biometric monitoring and alert systems.

SportShield — AI-Powered Sports Piracy Detection Platform | [GitHub](#)

- Built a digital asset protection platform that identifies, tracks, and flags unauthorized redistribution of live sports media across global platforms in near real-time.
- Integrated **Google Gemini API** to detect content anomalies and authenticate legitimate broadcasts, enabling administrators to verify and block illegal streams.
- Designed an admin dashboard for manual verification workflows, helping organizations proactively combat piracy of high-value sports content.

Certifications

- Introduction to Vertex AI Studio | **Google Cloud** Aug 2026
- Learning Full Stack React | **Infosys Springboard** March 2026

Achievements

- Ranked **1,456 out of 47,951 participants (Top 4%)** at GirlScript Summer of Code 2026.
- Secured a spot in the **Top 15 teams** among 30+ universities at Code-A-Haunt 3.0, a national-level inter-university hackathon by Coding Blocks.

Education

Lovely Professional University

Computer Science and Engineering

2025 – 2029

Jalandhar, Punjab

Kendriya Vidyalaya Pithoragarh

Intermediate with Science — Percentage: 77.6

2024 – 2025

Pithoragarh, Uttarakhand

Kendriya Vidyalaya No.1 Bathinda Cantt

Matriculation — Percentage: 81.4

2022 – 2023

Bathinda, Punjab
